Dangerous Goods Certification & Verification Workflow – TMS

1. Business Objective

This module ensures that only trained and verified staff are authorized to work in the Dangerous Goods (DG) department, with full compliance and CAAM approval.

2. Summary Logic

- Staff completes Dangerous Goods training in TMS
- TMS issues training completion certificate
- Staff becomes eligible for CAAM digital certification
- Staff verifies details and signs digitally
- Super Admin verifies and submits to CAAM
- Upon approval, staff are authorized for DG work

3. Roles & Actors

- Staff
- Supervisor (Optional)
- Super Admin
- CAAM (External Authority)

4. End-to-End Workflow

4.1 Training Completion

- Staff completes DG course
- Attendance and assessment validated
- Status: COMPLETED and passed
- Staff appear in Super Admin verification queue

4.2 Super Admin Verification

- Reviews staff profile, course, certificate validity
- Approves or rejects
- If approved → Awaiting Staff Signature

4.3 Staff Verification & Digital Signature

- Staff logs in
- Reviews DG verification form
- Performs digital signature
- Status updated to STAFF SIGNED

4.4 Super Admin Submission to CAAM

- Reviews signed document
- System generates signed PDF
- Super Admin uploads to SharePoint
- Status updated to SUBMITTED TO CAAM

4.5 CAAM Approval

- Approval received externally
- Super Admin updates CAAM certificate details
- Status updated to APPROVED

4.6 Authorization

- Staff marked as DG AUTHORIZED
- Only authorized staff can be assigned to DG operations

5. Status Flow

COMPLETED (Training)

↓

AWAITING STAFF SIGNATURE

STAFF SIGNED

↓

SUBMITTED TO CAAM

↓

CAAM APPROVED

↓

DG AUTHORIZED

6. Validations & Controls

- Mandatory digital signature
- Certificate expiry check
- Single signature enforcement

- Full audit logging

7. Audit & Compliance

- User actions logged
- Approval timestamps
- Document versioning
- CAAM reference tracking

8. Future Enhancements

- API integration with CAAM
- Expiry notifications
- QR code validation
- Dashboard reporting
